M906 Instruction manual

NOTICE OF ASSEMBLE

Tips for assembling

1. Pictures shown on the package may be slightly different from the actual product.
2. All the materials are taken in the operation step, put the remaining materials back into the original pocket until the installation is completed. (Avoid material loss during installation)
3. The dimensions indicated in the step diagram are "cm".
4. If there have template paper material, please cut the material according to the template to avoid mistakes..
5. According to the part rule example at the bottom of this page, refer to the part on the part number drawing, find the material object and compare with the material list, confirm and install. (Wooden parts only)
6. Glue should not be applied too much, so as not to dry longer, overflow will affect the effect of the finished product.
7. Part shapes may differ from the photographs depending on the production batch

Testing on LED function

Be sure to test the LED lights before making the lighting, note that the LED white wire to the negative, gray wire to the positive reference to the following figure operation test.

Product comes with tool:

Symbol description used

Install parts in the opposite direction

Install the same parts on both sides

Pay attention to the direction of installation material B stick to material A

Fold in half according to dotted line

fold double edge to center dotted line

Fold four sides to the middle

Pay attention to the direction of installation material A stick to material B

combination part according 1 2 3 4 so on.

Small Bookcase

Complete the book shown above by folding the previous book.

Small Desk

Cut equally spaced (0.1-0.2cm) using scissors

Display Board

Come on!
You can do it.

Chair

Steps

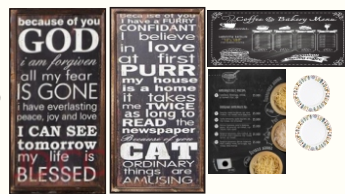

square table

Cut out the material G04, G06, G07, G08 and G14 according to the template paper before making.

Paste the printing paper on the G04 (decoration) card paper as shown, and cut out.

Paste the non-woven fabric in the order shown and cut out diagonally.

As shown in figure G15, trim the edges of the two ends to the red line, and then fold them as shown in figure.

Food Cabinet

We need more patience to make food!

Cut out the material G06, G07, G08, G09 and H14 according to the template paper before making.

A10-17

J01(7cm)

G20

Paste the non-woven fabric in the order shown and cut out diagonally.

Cut G08, G09 into small pieces and stick them together.

Paste two G07 (pizzas) together.

Cut the G09 into small strips and stick them together.

A10-15

Use a knife on the red line. At the dotted line of the template paper, gently draw a straight line and fold the line to paste.

Using tweezers, put the box into the G20 bag, then wrap it with J01 wire and cut off the excess.

Cut out the material G01, G05 according to the template paper before making.

C16

G01 (sofa cushion)

Use scissors to cut off any excess material around the edges.

C15

G01
(sofa backrest)

Use scissors to cut off any excess material around the edges.

2pieces
